

Harry Gulley

Environment, Safety, and Health Division Director

Harry Gulley serves as the Environment, Safety, and Health division director for PanTeXas Deterrence, LLC, the management and operating contractor of the Pantex Plant in Amarillo, Texas. He joined Pantex in 2024.

In this role, Gulley is responsible for Environmental Compliance and associated Environmental Projects, Worker Safety and Health, Occupational Health Services, Radiation Safety, and Waste Operations at the site.

Gulley has 29 years of experience in the environmental and safety fields in both the government sector and the manufacturing environment. He most recently held the position of Environment, Safety, Health, and Quality director for Fluor-BWXT Portsmouth, the decontamination and decommissioning contractor working for the U.S. Department of Energy at the Portsmouth Gaseous Diffusion Plant in Piketon, Ohio.

Prior to his work at Piketon, Gulley held a number of safety and quality positions at Wastren Advantage, Aleris, and Honda R&D.

Gulley is a Certified Safety Professional and qualified crisis manager in emergency response organizations. He has been a subject matter expert in asbestos evaluation, industrial hygiene monitoring, and hazard recognition. He has trained teams on Occupational Safety and Health Administration regulations and common workplace hazards and previously provided training for Certified Safety Professional certification exams. Harry has in-depth knowledge of the Clean Air and Water Acts as well as Environmental Protection Agency permits and compliance.

He earned a Bachelor of Science in Natural Science from Shawnee State University, Ohio.
