

The parties understand that materials and information associated with and resulting from the performance of this subcontract may be subject to U.S. Export Control laws, and that each party is responsible for its own compliance with such laws. This applies to all transactions with foreign nationals, including deemed exports and foreign travel.

In the event work scope authorizes purchase of equipment or materials from outside the U.S. or with a foreign entity, Seller shall request prior approval for purchase from the Subcontract Administrator. All purchases are subject to export control restrictions. Access to the procurement documentation shall be provided for audit purposes as well as access to the actual items where feasible.

No foreign nationals may work on this project without specific written authorization from the Subcontract Administrator.

Any modification to the scope of work stated that may result in export control implications must receive additional export review by all parties prior to such changes, and be formally authorized in writing by the Subcontract Administrator.

This Subcontract may be terminated at any time upon written notice if any required export license is not granted by the U.S. Government.
