Pantex
Interns

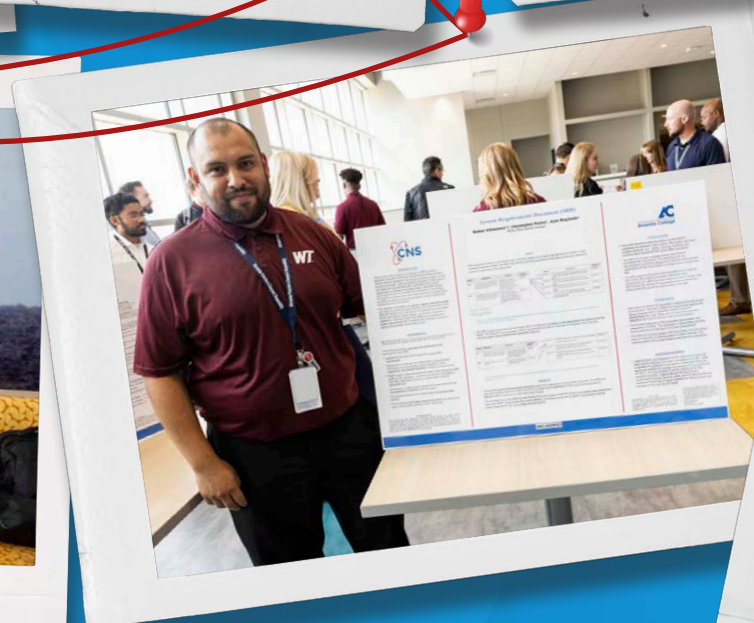

BLAST FROM THE PAST

"Interning at Pantex is a
NO BRAINER"

"I choose to come back
every summer after school
because I truly love the
work culture, values, and
people here."
-Lexy Gomez

SUMMER 2024
INTERNSHIP EXPO

Photos are dedicated to
returning interns.

I would say that if you are a student or individual who wants to be challenged and have the opportunity to grow professionally and personally, then you are most definitely in the right place.

-Lexy Gomez

ZONE 11 TOUR

The intern site tour allowed interns to see the inner workings of Pantex and create a stronger understanding and appreciation for the Pantex mission.

This type of coworker environment is completely new for me and has been a fun experience!

-Sam Civiello

A series of expos designed to allow Pantexans to present their work to incoming employees and interns. This program acquaints interns with different departments and the work they do, and possibly even future job opportunities. Engineering showcased a variety of departments and allowed interns to ask department-specific questions.

TARGET
LOCATED

NEW HIRE
INTEGRATION PROGRAM
(ENGINEERING EXPO)

I enjoy the ability to work on and experience my projects digitally and then being able to see what I create come to fruition that other people actually fabricate. It is very rewarding.

-Dillion Wise

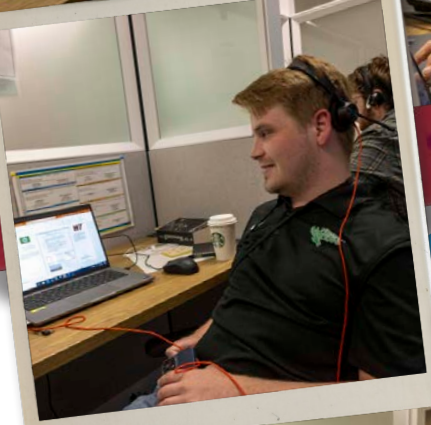

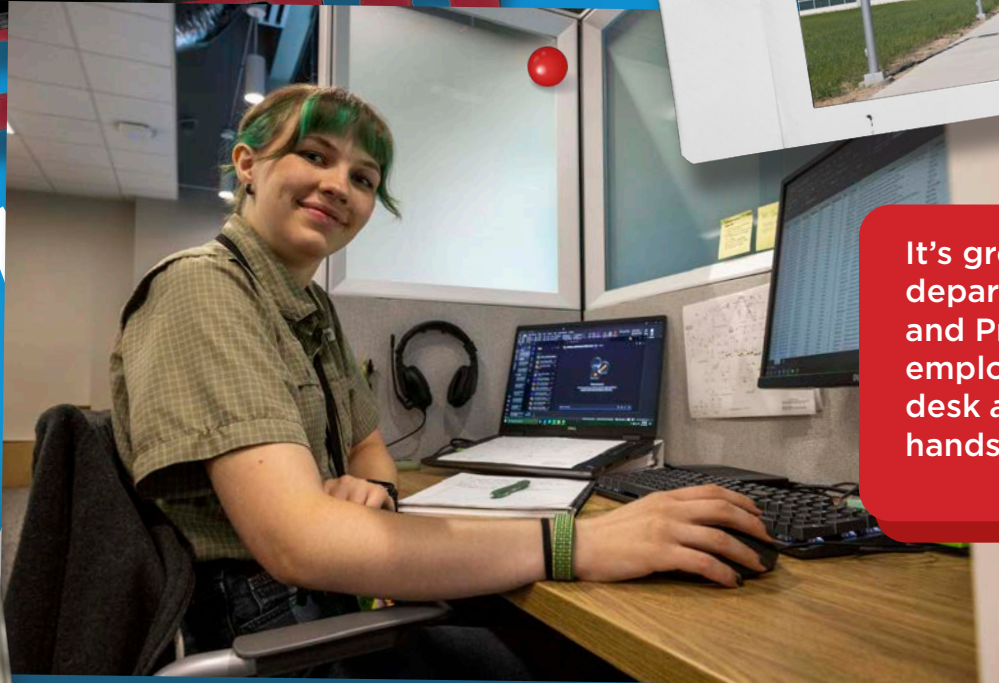

JCDC
JOHN C. DRUMMOND CENTER

It's great being in a department, Infrastructure and Projects, where employees work at a desk *and* go on-site to do hands-on work.

-Hope Greenwald

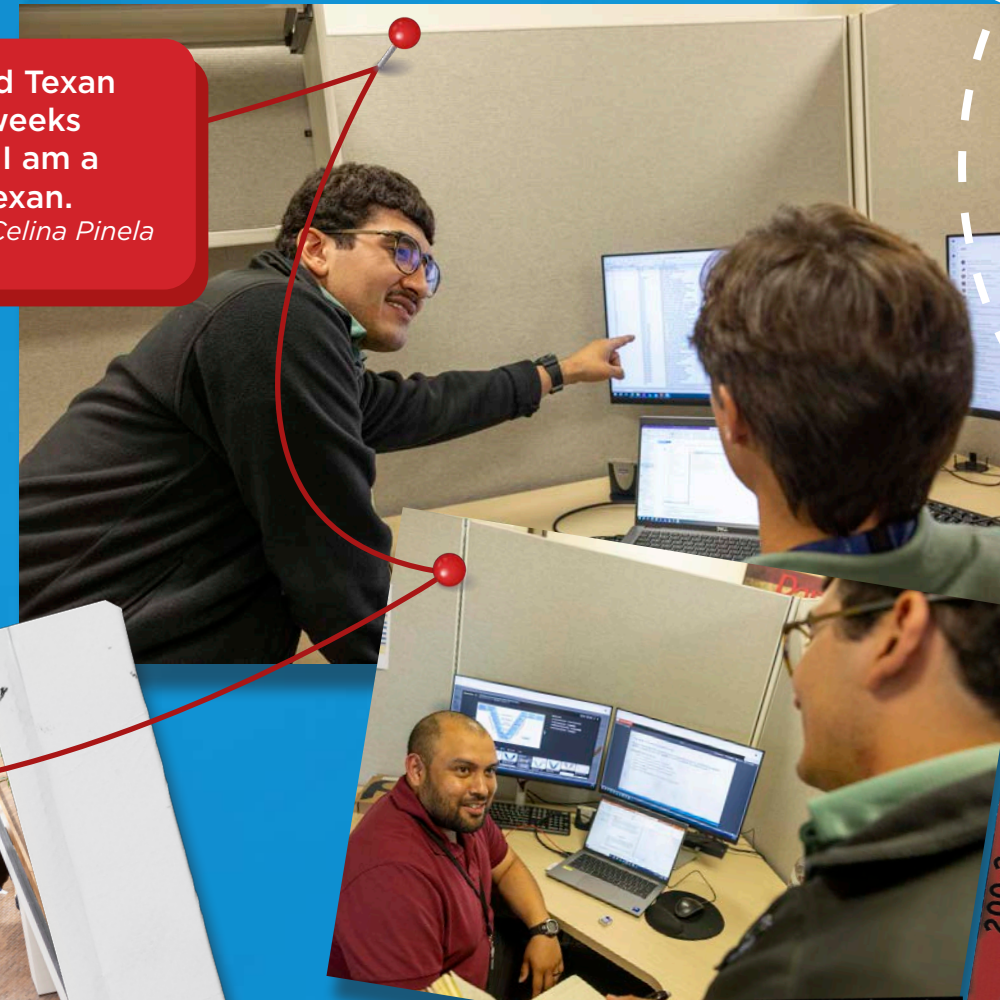

As an intern it is my job to leave a mark before my internship is over.

-Jesus Marquez Olivas

I am a proud Texan
and for 10 weeks
I got to say I am a
proud Pantexan.
-Celina Pinela

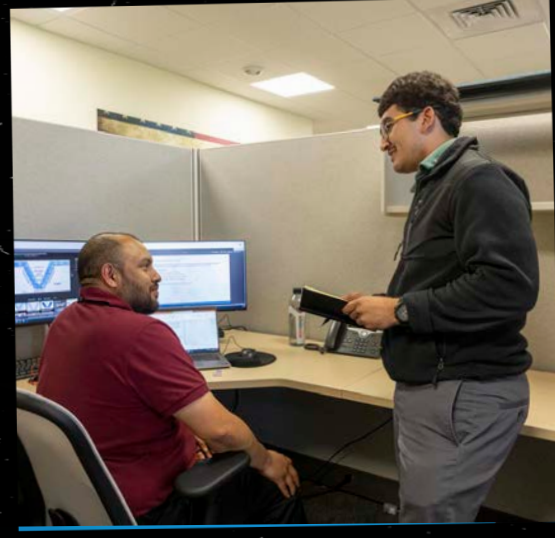

Being a Communication
intern is such a rare
opportunity. I am so
grateful to be here.
-Jenna Lopez

PAC
PANTEX AMARILLO CAMPUS

Pantex invests in you
because they see your
potential. This is a once-
in-a-lifetime opportunity—
regardless of what your
job is, we all contribute
to something bigger than
us, which means that even
after an intern wraps up
their internship, they leave
a little piece of their legacy
here.
-Lexy Gomez

SUSPICIOUS

UNDERCOVER INTERNS

I wanted to be able to contribute to something as meaningful as the security of this nation, even as an intern.
-Dillion Wise

I am so glad I'm here!
-Celina Pinela

My designs will outlive my time as an intern here.
-Catherine Vo

WHAT HAS BEEN YOUR FAVORITE PART ABOUT WORKING WITH INTERNS?

Interns have a wide range of personality types. Across that wide range you see interns come into their own during the internship.

WHAT ROLE DO INTERNS PLAY IN ACCOMPLISHING THE MISSION AT PANTEX?

Interns make such an impact here. The work that they do really matters and it is literally carried on for years to come. It is not just something they check off a to-do list, or a paper they have to write like they would at school; what interns are doing literally will impact employees for years to come, and it will impact the mission. It is a pretty awesome thing!

WHAT IS SOME ADVICE YOU WOULD GIVE INTERNS AS THEY REACH THE END OF THEIR INTERNSHIP?

Advice I would give interns as they are getting ready to leave us to go back to school or into a full-time job is take what you learn with you and take that Pantex Way with you. Some of the coolest things I have learned are here: our questioning attitude, our safety-first model, the fact that we want everyone who enters the plant to go home better than they came in. Here at Pantex what we are doing just impacts so many lives and so many people. It is serious work, it is big work, sometimes it is very fun work, and that culture can stay with you whether you are going back to school, finishing up your degree, or you are looking to step into your first full-time role.

WHAT HAS BEEN YOUR FAVORITE PART ABOUT WORKING WITH INTERNS?

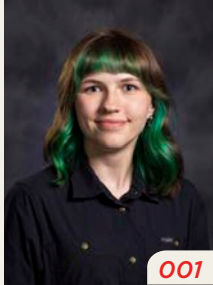

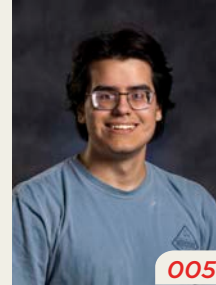

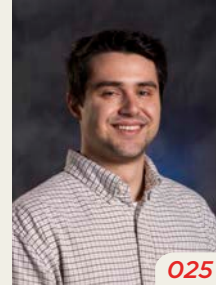

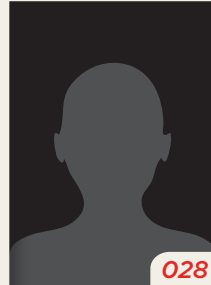

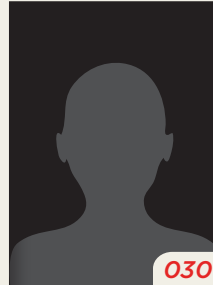

I love working with interns because of their excitement; the excitement that interns have for their different areas and to see some of the different learning that they have done in the classroom applied is really cool. I love to see the confidence boost and them relaxing, and knowing that they are working with good people in their departments.

WHAT ROLE DO INTERNS PLAY IN ACCOMPLISHING THE MISSION AT PANTEX?

I think that interns are a big part of our educational integration strategy. Interns make that relationship with schools and universities even stronger for us, because if students are coming here and we are going and recruiting and meeting faculty and researchers, it makes that whole interaction between the school and Pantex that much stronger. Our hope is that as the relationship gets stronger, that it is a continuing relationship and creates pipelines between really great schools and Pantex. We want to have a constant flow of great students and great talent flowing through Pantex, because we all win with that. Students get a great experience and Pantex gets great employees.

WHAT IS SOME ADVICE YOU WOULD GIVE INTERNS AS THEY REACH THE END OF THEIR INTERNSHIP?

To finish strong, and keep your connections with as many people as possible.
